

United States Senate

WASHINGTON, DC 20510

June 13, 2024

As a follow-on to Senate conservatives' announcement on May 31, the undersigned senators issued the following statement:

“In a continuing response to the current administration’s persecution of President Donald Trump, we will not allow the fast-tracking of any Biden Article III court judicial nominees, as well as Biden U.S. attorney nominations. Further, we will not permit the fast-tracking of nominees who have suggested the Trump prosecutions were reasonable, endorsed President Trump’s guilt in these sham proceedings, joined or supported organizations that celebrated the indictment of President Trump, supported the “get-Trump” candidacy of Alvin Bragg, or supported lawfare or censorship in other ways. This complement to the pledge of May 31 will last until Election Day, when the American people will have the opportunity to decisively reject attempts to settle political disputes through the legal system.”

“While it is not our intent to bring any single nominee into disrepute, if our rights are challenged on the floor of the U.S. Senate, we will prosecute a forceful public case using all the tools at our disposal. Every signer is pledged to defend against attempts to fast-track the confirmation of Biden nominees. This will be accomplished through a joint effort and not be reliant upon a single Member’s willingness to hold every nominee.”

This announcement is part of a series of ongoing efforts by Republican senators to push back on the Biden administration’s lawfare against his leading political opponent for the presidency.

Sincerely,

Senator JD Vance

Senator Michael S. Lee

Senator Bill Hagerty

Senator Roger Marshall

Senator Tommy Tuberville

Senator Eric Schmitt
